Norimitsu Kaihou (Nitroplus) : School-Live!, Vol. 6 before purchasing it in order to gage whether or not it would be worth my time, and all praised School-Live!, Vol. 6:

Five StarsBy kentFave!!1 of 1 people found the following review helpful. School-Live continues to be one of the stronger manga reads available in printBy TheOASGI have to admit my heart sunk a little bit when I saw the cover. In the last volume of School-Live!, Yuki and her friends graduated from high school and were prepared to take on the world. (Read: zombies.) While we know there are still other people out there, I canrsquo;t say Irsquo;ve been longing for a cutesy little sister-type character like the girl on the cover appeared to be. While we as readers know there are still other people out there, often the little kid characters end up either just being annoying for one reason or another or just usurp all the attention.As you might expect, a lot happens here in this volume. Yuki and her friends drive through the city on a ldquo;graduation triprdquo;, but itrsquo;s difficult with the current state of the world. Then they hear a voice on the radio, and then later find a handwritten note. Theyrsquo;ve already found Miki, but can they find someone else out there in the apocolyptic world?Well, one look at the cover makes this question redundant.While the search for survivors could have been the focus of this volume, instead, itrsquo;s Yuki and friends who remain the stars. A lot of media portray graduation road trips as a way to discovering onersquo;s self, and we get to see an even deeper insight into the characters. Almost everyone finds themselves under new stress, and Yuuri in particular approaches her breaking point. Wersquo;ve seen her on the edge before, but now she canrsquo;t even hide her panic from the others. Meanwhile, Miki suspects Kurumi is not as fine as she pretends to be as Yuki becomes a little more responsible. This volume illustrates perfectly how the group survives because of the delicate balance between the members and why I was worried about the introduction of a sixth member of the School Living Club.So, how about the new girl? Not much to say yet. She literally hasnrsquo;t said anything yet. The situation has caused her to be (I assume) temporarily mute. Being as shersquo;s so much younger than the other girls, I donrsquo;t know if shersquo;s going to have any role outside of being Yuurirsquo;s opposite mdash; everyonersquo;s little sister instead of everyonersquo;s big sister. The cover and insert makes me believe the little girl is going to be around for quite a while, but I wish her addition would have had a little more drama like the voice on the radio.Plus we donrsquo;t actually get to see her being rescued, so I hope a future volume will show a flashback. (I wouldnrsquo;t be surprised considering shersquo;s obviously been through a lot.) The final pages present some interesting opportunities for the next volume, and I wonder if the girls are going to have to put off college for a little bit.Visually, the little girl doesnrsquo;t appear much younger than Yuki and company. (Well, minus the more mature-looking Yuuri.) Thatrsquo;s not too surprising considering Chibarsquo;s moe designs. A new character had a lot of potential for some

new visual flair (cool, edgy, and feminine), but she exits stage right before we really see her. I never thought about it before, but it might be interesting to see someone join the School Living Club who clings to beauty even at the end of the world. It really might add to the forced everyday life feel if someone still focused on still wearing their multiple pairs of earrings everyday. Regardless, Chiba includes some terrific shock visuals to show the battle each of the girls are fighting. Kurumi stares silently at the rotting corpses while later receiving a fright. Yuki balances her happy-go-lucky smiles with her "avoid the subject" small upturns of her mouth. You'll see a lot of hand-holding, representing how everyone is trying hard to be someone the others can cling to. Whether you view these as a shipper or not, the girls are already swearing their lives to each other. When you see some of the zombies some disturbingly smaller than the others until death do us part really is. I only wish we could have seen a few more moments that were implied and skipped over, like the encounter at the radio station. The girls of School-Live! may be moving on from school, but I know I am not moving on from the series. A very strong volume with the only caveat being "I'm not sure how Ruu-chan" will change the dynamic of the girls. She only appears at the end, but big changes could be afoot. - Krystallina

The girls head out on a graduation trip together! There's a mysterious voice on the radio--does that mean someone else is still alive!? In high spirits, the School Living Club sets out to see if they'll be adding a new member.
